EPIC-SHIFT Policy Workshop (DRAFT)
Alternative proteins: social and economic barriers

8 July 2025, 10:00 – 12:00 CET

Online meeting

Safe Food Advocacy Europe is honored to invite you to participate in the EPIC-SHIF Initial Policy Workshop “Alternative proteins: social and economic barriers” on the **8th of July 2025**. The agenda of the event is structured as follows.

Workshop purpose

The aim of this high-level policy workshop is to initiate a structured dialogue among European institutions, civil society organizations, academic experts and food system stakeholders on how to foster the sustainable and socially inclusive integration of novel foods based on alternative proteins (NFAP) into European diets. Organized by SAFE within the Horizon Europe project EPIC-SHIFT, the event will identify critical areas to guide the project’s research by examining four European macro-areas: Scandinavia, Eastern Europe, Mediterranean Europe and Balkan Europe. Through a comparative discussion, the workshop will explore gastro-cultural specificities, social and economic barriers, and issues related to health, food safety and risk perception in each area. It will also provide an initial assessment of existing and potential policy approaches adapted to these diverse regional contexts. The insights gathered will inform EPIC-SHIFT’s future research and advocacy efforts, supporting the development of science-based and socially fair recommendations for a sustainable protein transition across Europe.

Agenda

**Co-funded by
the European Union**

SAFE – Safe Food Advocacy Europe is financially funded by the European Union in the framework of the ESF+ Operating Grant. Views and opinions expressed are those of Safe Food Advocacy Europe only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.
